THE THIRTY-SIXTH ANNUAL REPORT OF TOC H

# BORN OF A SPIRIT

*Readers will notice a change in the form of this year's Annual Report. The Central Executive has suggested that the Report itself should be a more concise, factual statement without much in the way of general comment, and that this should be prefaced by a general survey by the Administrator.*

LAST DECEMBER Toc H had a birthday and entered the forties. What shall we make of our forties? How shall our future Toc H historians describe them? The "Roaring Forties"? Memories of schooldays will recall that after the Doldrums the assault of the Roaring Forties came to mariners as an exhilarating challenge, an end to the aimless, demoralising drifting. It called afresh for fine seamanship, hard discipline, good piloting and a constant reliance on the compass.

First let our thought be of thankfulness to God Who has brought us so far on our voyage, through war and peace, sometimes through fair weather, frequently through fog, and always, as our Treasurers have reminded us, just clear of the rocks!

It must be plain to all of us that national and world conditions are not going to allow us the luxury of fair weather cruising even if we should want it. Strong winds are blowing up at home and abroad, and even if, by God's grace, we are kept clear of war, the racial and industrial tensions and the growing currents of self-interest are going to place ever increasing tests on crew and craft alike.

Throughout 1955 there was a steady flow of news items to remind us that at home and overseas Toc H was still very much on the job in a multitude of varying activities. Amongst the overseas news were reports of fine progress in Singapore, of expansion in Uganda, of the first non-European unit in South Africa, and of a great Festival and Conference in Australia. At home it was a year of many events of both local and national character. Old jobs were well maintained and some notable ones were added to the list. As examples, we heard

of members in North Wales who themselves built a chapel and recreation hall for their local sanatorium, and in Ilford the scheme for a workroom for the employment of old-age pensioners which was initiated by Toc H went into production. April saw thousands of Toc H men and women in London for a great national Festival in Westminster Abbey, Westminster Chapel, the Albert Hall and the Horticultural Hall. In December the year closed with an unforgettable Seventieth Birthday Party for "Tubby" and the happy, homely story that once again the local Toc H choir had sung their carols to the Royal Family in the Drawing Room at Sandringham.

Toc H is a movement which grew accidentally, a protest in simple, practical terms against the all too evident lack of fellowship in the world at large. That protest still needs to be made, for the lack of real creative fellowship is, if anything, greater today. Even the Churches, generally speaking, have not yet found the way to develop the power of fellowship to anything like its full potential. Congregations consist of people who may be known to God, but often are not particularly well known to each other. By bringing their experience of fellowship into their own churches Toc H members of all denominations enrich the quality of church life. This is one of the most significant contributions that Toc H can make in this or any generation.

Only after Toc H had been going some time did its members pause to take stock and, for the sake of the record, try to define the nature of the society they had founded. This is an interesting parallel with the early Christian Church, where the deeds came long before the creeds. The creeds were "for the record", but the keynote of the first Christians was a very practical one: "They that do the will shall know the doctrine". Creeds are important, but when definitions take up more time and energy than demonstration things are getting somewhat out of focus.

Every Toc H Branch is an independent, voluntary fellowship, bearing full responsibility for the shaping of its own future. It would be odd if a fellowship did not at some point enter a phase when it seemed extraordinarily difficult to stick to the principle of keeping the "deeds before the creeds". Did not James have to remind the first Christians "Be ye doers of the word and not hearers only, deceiving your own selves"?

One affectionate critic said that if ever he looked in on his local Branch he usually expected to find someone leading a

very solemn discussion on "What is Toc H?", but there was nothing in their fellowship that compelled him to come in, and no one ever captured him with an invitation to join them on a job.

We might as well accept the fact that no one can put Toc H satisfactorily into words, but anyone can put it into practice. Toc H is practical and it is also personal. Most of what we learn of it is from studying other men's lives, not from the book; the book confirms. We were drawn into Toc H by the sheer attractiveness of other men. We admired their character and conduct, we envied their sparkle, and we wanted to know them better that we might learn the secret of their way of life. Toc H is knit together by loyalties between persons, all of them kept true in so far as they point towards a greater compassing loyalty to another Person, Our Lord Himself. Except there be a source there can be no light and no reflection. There is no such thing as abstract Toc H; Toc H is all reflected Light and we are called to be its reflectors.

If we take this emphasis on personal responsibility and personal influence seriously we are doing a supremely important thing. The tendency of the times is quite the reverse. A headmistress observed that whereas in previous generations a girl would say "I'm sorry I did it"; nowadays it is "I'm sorry it happened". People are pushing responsibility as far away from themselves as they can, and try to put the blame on the system of things, on events beyond their control, or on the people at the other end. Occasionally the same symptoms are bound to creep in on us too. Here and there a member may become disheartened, which leads him to accuse Toc H of dying. He fails to see that all that has happened is that he has become a bad reflector and he cannot understand that the light which for the time being shines low in him is leaping thrillingly to life in other men in other places. In Areas and Districts which are going through difficult times one invariably finds the members hunting feverishly for some new 'magic wand' to bring about a transformation scene. They alter constitutions, change systems, and pass resolutions to change everything there is in Toc H except the one really important factor—themselves. One listens in vain for the personal note of penitence. We are born of a spirit, not of a system, and all the messing about with systems usually aggravates a weakness. The only hope is for a humble spirit which says "Create in me a clean heart, O God, and renew a right spirit within me".

People generally are shy and shut in. They are fearful of giving themselves away. What a liberation it is for them and a benefit to society when such folk are brought within the fellowship of a Toc H Branch where they feel safe to give themselves to the full in real meeting with real people. Real meeting does happen in the Branch gathering, but often it happens much more memorably out on a job together or in the privilege of visiting each others' homes. Many of us would say that we learnt far more about Toc H in members' homes than we did in our Branch meeting. The value to youngsters especially of being treated as ever-honoured guests in the homes of the older members is quite incalculable. Let us nourish the fine Christian tradition of being "much given to hospitality".

During 1956 we are holding a series of week-end Power Conferences which will be a chance for many hundreds of men from the Branches to meet with Central Executive members and other leaders from home and abroad. These will be no occasions for "joyless examinations of the springs of joy", but real meetings between real people who want to see Toc H always as a very practical, very personal thing.

And so, as we sail on into the Forties, now is the time to strengthen our confidence in each other, in our Toc H Family, and in the God who has brought us this far and given us our true Compass Guide. Then when hard winds come we shall not be taken aback, but exulting in our commission we shall use them to our advantage and go on to make a record run.

JOHN CALLF, *Administrator.*

## *The Family at Home*

**The Membership.**—According to Branch Rolls received the registered membership was 17,908, a decrease of 360 compared with the figure of 18,268 for the previous year.

Toc H has been described as a 'University of Character', and it is only to be expected that besides those hundreds of members who are lost to us by death each year there should be others who, having graduated through their Toc H experience, should go on from us to make their mark in other fields. The two aspects which still require the close attention of the Branches are recruitment and the painstaking transfer of members from one Branch strength to another when they remove. The comparative figures for new members recruited each year over the past five years have shown a fairly steady downward trend from 2,060 to 1,392 in 1955. With more than a thousand Branches in the field it should be well within our capacity to climb back to the 2,000 mark, not in five years, but one.

**The Branches.**—The number of Branches showed a slight decrease of 5, the total standing at 1,011 compared with 1,016 for the previous year, and the number of groups was 48, compared with 58. The tendency over the past three years has been towards greater stabilisation, with fewer Branches going out of existence each year and fewer new ones being created. There were 38 new Branches in 1955 and 43 which closed down.

**The Staff.**—During the year we welcomed Padre Sam Evans to the staff when he replaced Les Wheatley in South London Area in the summer. In September, after nearly twenty years on the staff as layman and padre, Norman McPherson left to become minister of Harrogate Congregational Church. Padre John Durham left West London and Surrey Areas in October to become Deputy Vicar to Tubby at All Hallows. He has left the staff but has not ceased to be a colleague. The appointments of two part-time Mark Padres, the Rev. Oswald Dickenson (Newcastle), and the Rev. Richard Blake Brown (Bristol), terminated in December, 1955, and January, 1956, respectively. To all these padres we are grateful for all they have done and wish them well in their new work. In June, the Rev. Frank Glendenning was appointed to the Carver Chap-

laincy in Hull, where as Chaplain to the University he is developing new and potentially valuable contacts with the student population.

On the lay staff George Lee left Manchester Area at the end of the year in preparation for posting to Victoria, Australia. In January, 1956, we welcomed back to the staff Bob Purdy after his exciting three-year spell of resettlement work in Malaya. Three internal moves took place: Les Wheatley left South London for Notts and Derby, replacing Gilbert Francis, who in turn replaced Mayne Elson in the South Western Area. Mayne has come to the London Office where, besides being North London Area Secretary, he has the general co-ordination of all Toc H activities of an all-London nature. We welcomed as colleagues Tom Cameron, whose part-time appointment as Pilot in parts of East London Area was made possible by a generous contribution from an Industrial Trust, spread over four years, and Jock Whittle, who joined us in May as Pilot, Mark IX Bristol.

Overseas, at the end of 1955, we were very sorry to lose the services of Peter Seymour-Price, South Australia, and Peter Campbell, South Africa. Our gratitude and good wishes go with them. The lack of a full-time staff man in Natal has been covered by the welcome appearance of Vic Evans, a retired schoolmaster member, in a part-time capacity.

It will be seen that the number of new recruits are not keeping pace with the number who are going off the staff. The problem is primarily a financial one, but not entirely. We could do with several young recruits for a spell of home service before possibly going overseas. The call from the Dominions for home-trained men, both padre and lay, is continual and as the work out there involves much travelling it is natural that the preference should be for young, unmarried men. It is to the home Branches and the home leaders that we look for this important duty of 'picking the winners' who will bring fresh ideas and vitality to the company of full-time staff.

**The Founder Padre.**—Tubby's Seventieth Birthday was celebrated in high style at St. Pancras Town Hall on December 12, when many old friends from Poperinge days onward assembled to pay a loving tribute. Amongst the birthday gifts were five bound volumes of illustrated pages bearing the signatures of Toc H men from every part of the world and a cheque for £260 for a gift of Tubby's choosing to be placed in All Hallows. The members, both men and women, also gave

£2,400 to add to the cheque for £10,000 which he had already received in November from City friends to help towards the transfer of Toc H Headquarters to Tower Hill.

Much hard work and research has not yet brought us to the point where we can say with certainty how it will be possible for the transfer to take place, but with many friends to advise us and much goodwill, we are confident that we shall be guided to a happy solution.

Meanwhile, All Hallows grows more lovely as the work of rebuilding continues, and 1957 may well see the Church complete and in full use again.

**The Schools.**—The increase in the number of affiliated schools continues. Last year it rose by 19 to 176. The Schools Secretary visited 41 schools during the year and others were visited by Area staff or local members. The field is wide open for local initiative and, as the affiliations increase, more and more responsibility will have to be shouldered by Areas and local Branches. Boys have shown far more interest in seeing Toc H in action than in simply being talked to about it. A successful Schools Week was held in London during the Easter holiday, taking boys from ten different schools from as far apart as Eastbourne and Macclesfield. Two similar weeks are planned for 1956.

A working arrangement has been arrived at with the Student Christian Movement in Schools whereby the co-operation of Toc H is available to S.C.M. groups in schools which are seeking ways of expressing their Christianity in terms of practical service. It is hoped that a talk about Toc H will be included in the programme of many such groups and a number of talks have been given already. Where Christian discussion groups are wanted within schools and Toc H is approached about it, it is agreed that in the first instance the formation of an S.C.M. group shall be suggested.

**The Marks.**—Once again we would record our deep appreciation to the Honorary Wardens of our Marks for the way they have kept the spirit and the mixture of their teams up to a very high level. The housekeepers too deserve our thanks for the prudent planning which has kept the index at a reasonably low level despite the general rise in cost of living.

Out of a total number of beds available of 487 the average occupied has been 445. A sudden drop in residents in one or two provincial Marks brought this figure down considerably, but new intakes have since improved the position.

x

The problem of obsolescent property still causes us great anxiety. A special committee has been meeting to make recommendations for future policy and some hard decisions may have to be accepted. Already, with great reluctance, we have had to close Mark IX Bristol, an old property which was running at a heavy annual loss. We look forward to the day when another Mark IX will appear in Bristol.

Whilst we are bound to contend with the problem of aged buildings it would be wrong to think that our strategy is wholly defensive. We are aware that there are many cities in the United Kingdom where a good Toc H Mark would play an important part. Wherever local drive and initiative is manifest the Central Houses Committee will not be slow to respond, but it has to be stressed that the main weight of money-raising is always bound to be a local responsibility.

The bright interiors of many of our Marks and the good appearance of their gardens is evidence of the keen spare-time activities of the Marksmen, and for that we are grateful.

**The Old House.**—Year by year the Old House in Poperinge increases its circle of enthusiasts by several hundred. It is inevitably a snowball process, for enthusiasm is infectious. As the process continues (and 1956 already should be even more fertile than 1955) we believe that the influence and inspiration of the Upper Room will seep into the Movement as a regenerating force of great potency. So often men and women declare that in Talbot House they have caught a vision of the true nature of Toc H for the first time. We owe much to our old friends at Poperinge and to the Honorary Wardens who do duty there during the summer months.

**The Elder Brethren.**—During the year we have learned with regret of the death of the following members among many who have given great service to our Movement at home and abroad: The Earl of Clarendon, President of Toc H, a great friend to Toc H in South Africa and a hard-working Chairman of our Central Revenue Committee for several years; The Earl of Gowrie, Vice-President, and once leader of Toc H in Australia; Sir Herbert Stanley, Vice-President and a well-loved leader known to Toc H in Ceylon, the Rhodesias and South Africa; Leonard Peiris, Hon Commissioner in Ceylon; Ralph Prothero, Honorary Area Correspondent in South Wales.

**Our Publications.**—Amongst the year's new publications have been *Toc H and Three R's*, a transcription of the speech

given by Professor E. G. Bowen at the Festival Evening gathering at the Royal Albert Hall in April, and *Rediscovering Toc H*, an illustrated booklet of Mayne Elson's articles reprinted from the TOC H JOURNAL. *The Theme of the Vigil*, prepared by Rex Calkin to help all those participating in the 1955 World Chain of Light and Vigil, was widely used and welcomed and will undoubtedly be used far beyond its original purpose. For the sixth successive year we have published the *Toc H Annual*, a volume printed in Braille for blind members and friends. The *Toc H Diary* once again met a real need.

REPRINTS.—During the year further reprintings were necessary of *Toc H Today*, *The Story of Toc H*, *Toc H Defined*, and Captain Liddell Hart's pamphlet *A Guide to Living*. A revised edition of *A Pocketful of Prayers* is in the course of preparation.

PENDING.—Under the provisional title of *Talbot House to Tower Hill*, Padre John Durham has been compiling an anthology of Tubby's writings.

CHRISTMAS CARDS.—Our 1955 Christmas Cards met with whole-hearted approval, the stock of all three designs being completely sold out.

NEW FORUM.—Under Iain Fraser's able editorship this stimulating quarterly, now in its tenth year, reports an increase in subscribers but still requires to become more widely known and supported both within and beyond the Movement.

FILM STRIP.—During the year our second Film Strip *The Old House*, a pictorial visit to Poperinge and Ypres, has made a welcome appearance in Branches at home and overseas.

FILM.—The production of a twenty-minute film that could be widely used as an introduction to the Movement has not yet passed the planning stage, but as we go to press there are high hopes that 1956 will see its fulfilment.

RECORDER.—The purchase of a Tape Recorder has enabled some interesting experiments to be made, and besides beginning to build up a library of familiar voices, exchanges of recordings have been arranged, notably with overseas Areas.

**The Women's Association.**—The strong bonds of affection between ourselves and the Women's Association were well maintained during the year, both in the field and at our respective headquarters. The visit paid by their Founder Pilot to South America was one which gave pleasure and fresh encouragement to men and women members alike. We too lost a friend when Mrs. Horne, their Hon. Treasurer since

early days, died in December. She was a familiar figure at our monthly Central Finance Committee meetings.

**The World Chain of Light.**—For the second year in succession the World Chain of Light was made the occasion for the holding of a twenty-four-hour Vigil of Prayer on lines similar to the one held in 1954. News from Branches in all parts of the world shows that once again it was well maintained and the inspiration that it has given to the more isolated of our Branches overseas has been most marked.

**The Festival.**—The National Festival held in London on the week-end of April 23/24 was well attended and the high spirits of the occasion were well maintained from the beginning with the "meet" in St. James's Park on the Saturday afternoon to the Family Gathering in the Royal Horticultural Hall twenty-four hours later. The packed services in Westminster Abbey and Westminster Chapel were impressive indeed, but many an old campaigner amongst our members was heard to say that the most moving occasion of the whole Festival was the lifting up of several hundred lighted Branch Lamps, stationed in the form of the Patriarchal Cross, as the Founder Padre took "Light" in the Royal Albert Hall. Few members can possibly realise what a gigantic task it is to organise a Festival of this size and we would acknowledge our indebtedness to the Festival team of Headquarters Staff and volunteer members who worked long into the night for many weeks to make it all possible.

**Revenue.**—The total number of Toc H Builders stands at 4,668 and the total contributed by them to the Toc H Family Purse increased by £400 to £11,008, which is only £67 short of the record total of 1950/51. Our appreciation of the strength which comes to us from this section of the Toc H Family is deep and genuine. This regular assistance is of tremendous help when it comes to planning our yearly budget.

Increased use is being made of deeds of covenant, a sign that the potential benefit of this system of giving is being brought home to the membership as a whole.

A member of Toc H, Mr. Francis Scott, recently started a correspondence in *The Times* on the part that industry could play in supporting charities. We would like to pay our tribute to the many industrial and commercial firms that are already helping us in our work and we hope that through the advocacy of our members and friends the number may continue to increase.

The third "Painting is a Pleasure" Exhibition, organised once again by Mrs. Rex Benson, was held in London during May/June and afterwards at Hove. This yielded the splendid result of £1,500, and the Exhibition was visited by its two royal exhibitors, King Feisal of Iraq and the Duchess of Gloucester. Her Royal Highness also attended the Scala Theatre performance of the Stock Exchange Dramatic and Operatic Society's production of "For Better, For Worse" on November 30, the proceeds of which will of course show in the accounts for the financial year 1955/56.

The Central Revenue Committee has watched over the central money-raising efforts and has urged, so far with small success, that individual Branches could enlist the widespread goodwill there is towards Toc H by encouraging the formation of local Toc H Revenue Committees. It has been a common experience that where Branches have set out to promote some money-raising effort on behalf of our funds they have been quite astonished at the cordiality with which all sorts of people have come forward to do something for Toc H. As one means of helping in the formation of local Revenue Committees the Central Revenue Committee has produced a booklet called *The Case for Toc H* and it is hoped that this will be used to good advantage in our revenue work throughout the country.

### *The Family Overseas*

The long list of signatures in the Overseas Office Visitors' Book shows that once again we have been able to welcome many members from Toc H in every part of the world. Included among them were Sir Robert Tredgold, our Hon. Commissioner for Central Africa, who made a welcome contribution to our April Festival, and Patrick Moxey, Hon. Commissioner in Argentina. Several Toc H members from this country have managed to call in on Toc H Branches during their travels abroad. Sir Giles Squire visited Toc H in Uganda and Rhodesia, and Miss Macfie toured South America.

The summer will be remembered for the arrival in Great Britain of H.M.A.S. *Vengeance* (Royal Australian Navy) with Padre Helyer and other keen members of the Toc H group on board. They made themselves known to Toc H in London and in various naval ports. They returned all too soon, in February, re-commissioned as part of the crew of the carrier, H.M.A.S. *Melbourne*, where no doubt they will continue the good work.

**Australia.**—The great event of the year was the Australian Conference and Festival held at Victor Harbour, South Australia, in April. Reading reports from the Australian Areas one realises that the problems which most affect us in the home country are those which also loom largest for them. General prosperity creates its own difficulties and the Conference theme "Australia—a Democracy in Search of God?" was very relevant.

The need for younger men, the need to plan service along more imaginative lines, the importance of a genuinely spiritual foundation to Branch life, are all concerns which the Australian membership is facing up to.

Elsewhere in this report we talked of Toc H as a 'University of Character' and of men graduating from it into other fields of action. Western Australia give us all an imaginative lead in this extract from a recent letter: "In regard to Scouting I feel we have done a good job. We virtually lost the Mt. Barker group to Scouting, which I claim isn't a bad thing. Albany also have lost several members to the same cause, and two or three of our Nungarin members are actively interested in the local Scout Troop, though happily still retaining membership of the Branch. We have been supplying working-parties over the past twelve months to help in the building of a Girl Guides' Training Centre, the site of which is situated in a delightful spot some twelve miles from Perth."

**New Zealand.**—The need in New Zealand is for a full-time staff-man, and already the members are setting about raising the wherewithal to make this possible. Jack Davies, formerly full-time Dominion Secretary, who recently handed over to Pat Jaques after several valuable years as Hon. Dominion Secretary, summarised the situation as follows:

While Toc H (out here) is small it does have a certain amount of life about it, which justifies the optimism I hold for its future success. We have a tremendous amount of support from all over the Dominion, both in official and unofficial places. We have many friends who are keen that we, who are in the midst of things, shall succeed. We do really have a very great heritage of friendship behind us, and in the Movement we still have men of ability who can give us the lead we need. Meanwhile we have a number of worthwhile jobs under weigh which take our time and manpower, so that the work still goes on. Looking back over the past six years of Toc H in New Zealand, I can see some sign that we have stabilised the situation in the present Branches (nine of them) and while the hoped-for extension has not yet come it can't be really far away.

**Canada.**—The news of the starting of a new group at Vermilion (Alberta) was the first sign of breaking new ground for several years. In general the situation remains static and is not likely to change until we are able to put a full-time Canadian staff man into the field.

**Brazil.**—The Branch at Morro Velho—a mining centre in the heart of Brazil—whose numbers have been gradually dwindling over the years, has at last had to close down. On the other hand a new group has started promisingly at São Paulo.

**Argentina.**—The House in Buenos Aires at Chacabuco 723 has finally been sold and has not as yet been replaced. The change in the political situation has not been without effect on the Toc H family out there and recent reports have shown a more hopeful attitude to the future.

**India.**—The Family in India still continues to make a distinctive contribution and the work of the "village wings" is watched with special interest. There are now strong hopes of our being able to send a padre from this country to India for two years in order to help develop the work, to encourage a fresh infusion of European interest, and to seek out an Indian member for training as his eventual successor.

**Singapore.**—Talbot House Singapore continues full and active in many ways. The House has a steady stream of Servicemen on leave, who take up every bed available for them, and there has been some interesting work among the Chinese Christian community. The new group at the Naval Base is going strong.

**Uganda.**—The work of Charles Potts, Hon. Commissioner, and Aggrey Willis has been planned with a clear eye to the main strategy and has yielded good results. Concentration on Makerere College and on the Engineering School at Kampala, which received its Lamp from the Governor in December, has now been extended to a Divinity School for African students. Two other groups, Naguru and Mengo, have also been formed. There have been some notable examples of Africans and Europeans combining publicly on Toc H jobs and a Toc H pick-and-shovel brigade, including the Bishop in its ranks, is reported to have made a deep impression in more ways than one!

**South Africa.**—The high quality of 'jobmastery' continues, and the report of the T.B. Settlement at Botha's Hill speaks of general consolidation. Since it began 431 patients have been

treated, of whom 66 per cent have been discharged as cured. The emphasis is now more on work with children, and four of the seven wards are given over to them. A noteworthy development is the scheme for arranging legal adoptions for discharged children who are unwanted or have lost their parents. The Gables Clinic in Johannesburg for alcoholics continues its fine work. Toc H, having pioneered the idea, is finding the financial responsibility a heavy one and there are thoughts of transferring the management of the house to a public body.

The first all-African group of Toc H, the Jubilee group in Johannesburg, is being watched with particular interest, and reports so far of its progress are encouraging. In Natal the members have made a very interesting experiment called the Natal Farm Scheme (or Rural Mark). It is hoped that this farm will become the focal point for the deepening of the fellowship between the Natal units. It will also provide an opportunity for young men to meet Toc H in natural surroundings and may well encourage some of them to take up farming.

**Central Africa.**—Toc H in Central Africa is rich in experienced leadership, and it is encouraging to see signs of new growth in Southern Rhodesia. The movement remains characteristically stable and now carries the responsibility for maintaining several houses or hostels, whose value is widely acknowledged.

## *The Services*

The work of our Services Clubs at home and abroad was well maintained during the year. Various changes of location took place. The Club at **Fanara, Canal Zone**, closed with the departure of British troops, but in October Frank Coleman-Cross moved over to Cyprus and soon opened up a new Talbot House in **Nicosia** where much good work has already been done despite the current difficulties of the Cyprus situation. This venture owes much to a visit from Colonel W. R. Elliot, Chairman of our Overseas Panel, and to the generous collaboration of the Army, particularly the Senior Chaplain.

The Little Bay Leave Centre at **Gibraltar** closed down in March, but Jock Brown, with much generous backing from the Army, was able to transfer his activities to premises on the South Bastion where he continues to work in his own inimitable style.

In **Germany** troop redeployments brought about the closing of our Club at **Bad Salzungen** in September and the opening of a new Club in **Paderborn** in November. During the year we were sorry to lose the services of Miss Florence Duff and Mrs. Marguerite Goodyear but our heavily understaffed situation has been relieved to a great extent by the welcome addition of the following : the Misses Eileen Alleyne, Ann Hadden, Edith Jennings, Phyl Lowry, Heather Morfoot, Joan Owen, and Mr. John Carrott.

The military authorities are intensely anxious that whatever happens the work of our Clubs shall go on unimpaired. Nevertheless the imminence of new currency regulations and anxiety about tenure of requisitioned property are matters which our Commissioner, Angus Johnston, has to watch with some anxiety. It is a matter of congratulation to him and his colleagues that last year they were able to show a balance of £1,272 for the year.

Talbot House Seafaring Club for Boys, **Southampton**, has had another good year, receiving generous support from many well-wishers and from King George's Fund for Sailors. The Club owes much to Vice-Admiral Sir Geoffrey Blake as Chairman of the local Committee. We greatly regret that removal to London has compelled him to retire from the Chairmanship but we welcome in Commander F. G. Wynne one whom we are sure will prove a worthy successor.

Tom and Rosamund Davison have now completed their first year at **Wendover**. It has been a year of much reorganisation and there are now real signs of progress. Once again we have had reason to be grateful to the R.A.F. for continuing their substantial financial support.

**Chaplains' Departments, etc.**—Colonel Elliot has been very active during the year in concentrating on meeting Services Chaplains, with the goodwill of the heads of the Chaplaincy Departments in all three Services. The results are encouraging in the contacts made and the cordial interest shown. He has had a most friendly reception at the following centres : Chatham and Portsmouth (R.N. Chaplains); Bagshot Park (R.A. Chaplains' Dept. Depot); The R.M.A. Sandhurst; Dowdeswell Court (R.A.F. Chaplains' College); Cranwell R.A.F. Cadet Training College. The Chief Anglican Padre also visited Henlow (R.A.F. Technical College) and addressed the Officer Cadets.

**Service Members.**—A Services Conference was held in London in April as a prelude to a drive to bring Toc H and the Services into closer touch, and to make it more possible for servicemen to join the Movement despite their frequent moves. Ultimately the responsibility for recruiting men from the Services must rest mainly with the Branches, but during the coming year every effort will be made centrally to stimulate servicemen's interest in Toc H and to keep in touch with members when they join.

# THE ACCOUNTS

THE ACCOUNTS show a deficit of £6,907. The main variations in expenditure compared with the previous year are set out below :—

## REDUCTIONS

Postages & Telephones ... ..	£232

	<hr/>	
NET INCREASE in expenditure ... ..		<u>£2,388</u>

There has been no increase in staff and the increase in salaries is due to a revision of salary scales in May, 1954. The increase of £1,300 in Staff Benefit and Pension Scheme is brought about by the need to make more adequate provision for these purposes. Marks repairs and renewals cost £10,443, of which £8,500 was charged against Marks revenue, £1,500 against the general Income and Expenditure Account and the balance against reserve account on the Balance Sheet. The reductions represent the amount spent in connection with the B.B.C. Appeal in 1954, not repeated in 1955.

The reduction in income of £4,519 is made up mainly as follows :—

	£
Income from Members and Branches ... ..	253

The reduction in income from Members is disappointing. We had hoped for a steady increase year by year, and we still hope for that. Members' attention is drawn to the information on page xxvii which gives some indication of our weak spots and how easily most of them could be dealt with. The fall in the profit on sale of publications is largely due to the increased cost of printing which so far as the *Journal* goes is not passed on to readers by way of increased subscription. The non-recurrence of a B.B.C. Appeal needs no explanation, but many people who responded in 1954 have repeated their donations in 1955. The net proceeds of the Toc H Development Appeal have now been removed from the year's revenue account and appear "below the line", offsetting to a great extent the deficit for the year. It may be remembered that this appeal was intended to provide money for new development but, with the organiser's approval, it has in the past been used to help meet costs of existing commitments. It has been removed from the year's account in order to show by how much the income from the Family and from normal appeal sources falls short of our current expenditure.

The increases in income are a welcome sight. Donations include a most generous gift of £1,000 from Mrs. H. B. Ellison, a loyal member of Toc H Women's Association for many years, and it is good to see once again the profit on the Painting Exhibition organised for Toc H by Mrs. Rex Benson.

The Marks Account shows a deficit of £336 in spite of an increase in weekly charges operating from April, 1955. This was brought about by the sudden departure of a number of Marksmen from four Marks for a period of eight or nine weeks during the summer, a drop in numbers much higher than during the same period in 1954 or in previous years. We must also face the fact that an ever increasing cost of living, together with the heavy maintenance costs of old properties and high costs of renewing equipment have made the financing of Marks a very serious and difficult problem, which is receiving the urgent attention of a special Committee at the moment these notes are written.

The Services Fund Account is slightly better than in 1954. The only change in our "spheres of influence" is the transfer of Coleman Cross from the Canal Zone to Cyprus. It will be noted that the Services Fund investments have been written down to market values as they are current assets on which we are drawing year by year to finance our work.

The investments on the general account have not been written down but reference to the list of investments on page xxxv discloses the heavy depreciation which they have suffered as the result of the general economic situation of the country. Further depreciation can be expected until the causes of inflation from which we suffer have been removed.

The other major change in the Balance Sheet is the receipt of £7,316 legacies during the year which are included in "Special items £8,016" in the Capital Account. These are listed with others received during the last three years on page xxxiii of this report. They include £3,000 received (out of a £4,000 legacy) from the Estate of the late Wilfrid Wills which has been tentatively earmarked towards the cost of a new Mark in Bristol to replace Mark IX, now closed down. We are grateful to Small Heath Branch in the West Midlands Area who made a contribution, out of a legacy which they had received, of £2,000 towards the salary of a full time Padre for the Area. This gift is included in the item under Donations Unexpended of £7,171 "Other Funds".

There is one other aspect of our finances and work which must be mentioned. In the last Annual Report we asked Branch Treasurers to submit their accounts to their Area Treasurers together with a list of gifts to other organisations and a brief statement of jobs undertaken. This information

was wanted to enable us to help people outside Toc H to realise the value of the work we are doing. All Area Treasurers were supplied with a simple form of account on which this information could be shown, and returns were received from 20 Areas out of 28 and 363 Branches out of 1,011. A summary of information with comments will be found in the April Journal. The list of jobs which was compiled out of information supplied by 209 of these Branches covered a more varied and extensive field than any single member could possibly have imagined. Reading these simple accounts of acts of personal service made one realise the enormous power for good which lies in the hands of Branches and Members, and is daily being used. Herein alone lies an urgent sufficient reason for bringing Toc H to towns and villages and districts both at home and abroad where Toc H does not now exist. Such information enormously strengthens our appeal effort and we welcome it.

STANLEY V. BERWICK,

*Honorary Treasurer.*

JACK HARRISON,

*Chief Accountant.*

Several enquiries are received each year from Members and friends regarding the proper wording for legacies left to Toc H; it is as follows:—

*"I give unto Toc H Incorporated, the registered office of which is 47, Francis Street, London, S.W.1, the sum of ..... Pounds Sterling, free of duty. And I direct that the receipt of the Treasurer of the said Corporation shall be a sufficient discharge for the legacy, which is to be applied for the general purposes of the said Corporation".*

## AUDITORS' REPORT

TO THE CENTRAL COUNCIL OF TOC H INCORPORATED.

No provision has been made out of any of the funds dealt with in the consolidated balance sheet to reduce to market value the amount stated for the relative investments. Subject to this remark in our opinion and to the best of our information and according to the explanations given to us, the annexed consolidated balance sheet and income and expenditure account of Toc H Incorporated (not including Toc H Services Fund) together with the annexed balance sheet and income and expenditure account of Toc H Services Fund give a true and fair view of the state of the affairs of the Corporation as at 31st October, 1955, and of its income and expenditure for the year ended on that date. The amounts included in respect of the Services Clubs are based upon returns received from officers of the Clubs.

We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for our audit. In our opinion the Corporation has kept proper books of account and received proper returns with which the above mentioned accounts are in agreement.

## Reinforcing the Building

by KEN ROGERS

I MET HIM AT A TOC H DINNER (one of those rarer occasions in the Family). He was introduced to me as "Mr. C——, one of our Builders". In his buttonhole he wore a Toc H Builder's badge. He was obviously pleased to be among friends, as indeed he was, for the particular Branch which had enlisted his sympathies reaches out into every part of his town and draws people together in the common bond we know as Toc H. As a Toc H Builder he regularly subscribes half-a-crown *every week* to the Family Purse. In the same Branch another Builder gives a shilling a week and many more subscribe the equivalent of sixpence a week over the course of a year. Men and women like these, from all over the country and from far overseas, give their help in order to make our answer to some of the world's problems more real and effective.

Apart from their pledge to build bravely in present local and international conditions—a big enough task—the members of Toc H are also faced with providing a staff to serve the Movement in its world-wide adventure for the Kingdom of God. They do not build alone. With them are this splendid gang of workmen, who build not with "the mortar of comradeship and the solid bricks of service" but with the pen and cheque-book, with the word of encouragement and a prayer for those in the front line of Toc H service. Many fine works have been fashioned with such tools.

We could all name famous people whose money and the thoughtful use of it has brought blessing to their own and future generations. It is not everyone who is young enough, or fit enough, or available, or ready to undertake the exacting, active life of a Toc H member. But there are many who, seeing the Toc H man at his devoted tasks and knowing that every hour he spends in money-raising is an hour lost in man-saving, would gladly help with a gift in order that he might labour the more effectively where he is needed.

'Give so that others may receive' was an early slogan of Toc H. Members were enjoined to pay rightful dues for the

benefits they felt they had received from their rich Toc H fellowship; but, they were to add an extra sum so that others might also receive. This slogan well fits the Toc H Builders, who give so that others may receive through the work of members.

Our Builders are a well-mixed crowd of nearly five thousand. Some are famous and their names are often in the papers. Most are generous-hearted folk, unknown outside their immediate circle of family and friends, sometimes giving anonymously, and often sacrificially. Some would count it no honour to have their names in the news! Young and old, rich and poor, sick and well, Toc H seems to have an unfailing attraction for them, and we are thankful that it is so. Most Builders are enrolled through a personal invitation; a member interests a relative in the scheme; a Branch appeals to local tradesmen; an existing Builder asks his neighbour to join in; an old member superannuates himself by adding his name to the Builders' list; a big firm signs a Covenant. A Builder's drive here, a Builder's Secretary is appointed there, a Branch Treasurer sees the possibilities for the first time. So the list of names increases.

The Toc H Builders scheme is no new-fangled idea. Since 1927, it has been tested, tried and found not to be wanting. In fact, its value is immeasurable, its potentialities immense. Most subscriptions are not simply gifts of money, but tokens of a deep desire to assist an all-important job of service; a work we believe no one else can do, or can do as well. In our enthusiasm for fellowship we must not forget that many folk outside the Family would, if they knew that we wanted their help, be deeply interested and would want to give generously. I beg you to invite them.

### An essential link

*The Annual Report would be incomplete without this list of Areas and Branches. The pity is that lack of space prevents the giving of fuller details. Even so, they still form a valuable link in the chain that binds all units of Toc H into one world-wide Family.*

*When seeking or supplying information, please write direct to the A.S., H.A.C., or Regional Secretary concerned and, in the case of overseas locations, to the Overseas Secretary, Toc H, 47 Francis Street, London, S.W.1, or to the Overseas Secretary, Toc H Women's Association, Crutched Friars House, London, E.C.3.*

## **A TEN-YEAR PLATFORM**

# THE SPRING NUMBER OF **New Forum**

*Completes a decade of this vigorous Quarterly*

### **CHURCH & INDUSTRY**

Charles Young tells of an experiment relating Church and Industry in an Exhibition, joining industrial and spiritual things together.

The linking up of raw materials for local industries with the story of the Creation is an example.

### **BIBLE & SCHOOL**

John Jones on Christian education both in school and home, praises the re-issue of *The Teachers Commentary* by the S.C.M. Press as a useful work of reference where "we shall find companionship in the deep things of God."

### **THE CREED** of a

### **CONGREGATIONALIST**

N. F. W. McPherson says that the Creeds do not express our faith in the language and thought forms of today.

The Creeds are great historic documents, but leap from the

Birth to the Cross; surely the Gospel is revealed in the Glory of Christ's Life.

### **INSIDE AFRICA**

Iain Fraser reviews the latest book by John Gunther, who has travelled extensively in Africa. The exploitation of black by white in the Union and black by black in Liberia,

he says, gives one a feeling of sheer impotence on reading.

### **INDUSTRIAL MISSION**

J. MacMillan writes of Ted Wickham and his Sheffield Industrial Mission. In ten years

the team have made a vast number of personal contacts and friendships and have built up goodwill in a local steelworks.
